## Nutritional information

The values and contents indicated are rounded, average European values. The nutritional information provided on this website is derived from analyses conducted at accredited laboratories and based on the standard recipes and standard portion sizes of the products. Like regional and seasonal differences, differences in portion sizes, production technology and sources of ingredients can influence the information about individual products. Product and recipe changes are possible and are incorporated into the nutritional information at regular intervals. This list of information is up to date and may deviate from printed materials.
The nutritional information regarding burgers provided in this overview is based on preparation with the multigrain bun and does not reflect any deviations resulting from the selection of a different bun or additional sauces. The nutritional, allergen and additive information regarding the buns and sauces available is listed separately below and must be consulted for individual customer orders.
The portion sizes of our non-alcoholic and alcoholic beverages refer to the net quantity and do not include ice cubes or crushed ice.

## Allergen information

The list of allergens features the 14 major triggers of food allergy reactions (allergies and intolerances). Regulation (EU) No 1169/2011 on food information defines the allergens that require labelling. Labelling is required if the end product contains the aforementioned substances or products thereof in modified or unmodified form. Ingredients containing the 14 major allergens are used in the production of our ingredients as well as the preparation of our products. For that reason, we cannot entirely rule out unintentional or technically unavoidable contamination for products which do not generally contain this allergen as an ingredient. These forms of cross-contamination are not listed in the table. The following 14 major triggers of food allergy reactions are declared:

Cereals containing gluten: wheat, spelt, Khorasan wheat (Kamut), rye, barley, oats
Crustaceans and products thereof
Eggs and products thereof
ish and products thereof
Peanuts and products thereof
Soya beans and products thereof
Milk (with lactose) and products thereof
Nuts: almonds, hazelnuts, walnuts, cashews, pecans, Brazil (Queensland) nuts, pistachios, macadamia nuts and products thereof
Celery and products thereof
Mustard and products thereof
Sesame seeds and products thereof
Sulphur dioxide and sulphites
upin and products thereof
Molluscs and products thereof
Errors and omissions excepted. Information may deviate regionally and seasonally. Paniceus Gastro Systemzentrale GmbH regularly assesses all information. Should you have any questions, please speak to one of our employees at the restaurant or email us at info@peterpane.de
